

## PRODUCT DESCRIPTION

DHLA1300L is a product specially developed and designed for the furniture and medical industries. At the same time, the product can also be used across industrial products. This product has a compact installation size, uses a high-horsepower permanent magnet DC motor, and has an ultra-quiet design. It is suitable for the medical, furniture, and industrial industries. Indispensable and important product.

## TECHNICAL PARAMETERS

Voltage	DC24~32V								
No-load Speed (MM/S)	5		12		25		40		52
Load Pull Capacity(N)	1500		1000		500		350		300
Load Push Capacity(N)	1500		1000		500		350		300
Self-locking Capacity(N)	1500		1000		500		350		300
Voltage	DC12~19V								
No-load Speed (MM/S)	5		10		20		30		66
Load Pull Capacity(N)	1200		800		400		300		150
Load Push Capacity(N)	1200		800		400		300		150
Self-locking Capacity(N)	1200		800		400		300		150
Stroke Length	30MM-1000MM								
Operating Temperature	-10°C~+45°C								
Limit Switches	Built-in								
Operating Frequency	10% max 2min continuous use								
Inner Tube	Aluminum tube								
Lead screw Type	Type T								

The gray bottom can be equipped with a Hall sensor switch, the sound is low, mainly because the Hall motor is stocked, and the other can also be equipped with a Hall controller, the minimum order is 100 pieces
