

## PRODUCT DESCRIPTION

DHLA35 is a pen type electric linear actuator with a compact design. The diameter of the actuator is 35MM, the maximum load capacity is 2500N, the maximum speed is 28MM/S, and the maximum length can be customized from 10-1500MM, it has built-in limit switch. There is 2 installation(A1,A2) method, A1 type means Φ8 lug installation method, A2 type means flat end installation method.

The aluminum tube is made of high-quality aluminum alloy material, and has a beautiful appearance through oxidation treatment.

## TECHNICAL PARAMETERS

Voltage	DC24~32V				
No-load Speed (MM/S)	8		15		22
Load Pull Capacity(N)	2500		1800		1000
Load Push Capacity(N)	2500		1800		1000
Self-locking Capacity(N)	2500		1800		1000
Voltage	DC12V				
No-load Speed (MM/S)	8		15		22
Load Pull Capacity(N)	2000		1500		800
Load Push Capacity(N)	2000		1500		800
Self-locking Capacity(N)	2000		1500		800
Stroke Length	50mm-1000mm				
Limit Switches	Built-in				
Inner Tube	Aluminum Tube				
Operating Temperature	0°C~+40°C				
Operating Frequency	10% max 2min. continuous use				
Lead Screw Type	Type T				

Optional Configuration

- ◆ IP66 Waterproof
