

PRODUCT DESCRIPTION

DHLA36 is an electric linear actuator specially designed for fire-fighting distribution boxes and window openings. This product has only one motor specification and screw rod, load force 1000N, speed 8MMS, and has a strong self-locking ability, so it will not automatically fall down if under less than 400kg overwhelming force. The actuator can be used with a synchronous controller to realize large-load door and window equipment

TECHNICAL PARAMETERS

Voltage	DC24~32V
Load Pull Capacity(N)	800N
Load Push Capacity(N)	1000N
Self-locking Capacity(N)	4000N
No-load Speed	8MM/S
Stroke Length	100-1000MM
Motor Power	48W
Operating Temperature	-15°C~+75°C
Limit Switches	Built-in
IP Grade	IP65
Material	304 Stainless Steel + Aluminum
Noise	< 30dB
Operating Frequency	10% max 2min.continuous use
Inner Tube	Aluminum Tube
Lead Screw Type	Type T
Mechanical Life	More than 300,00 times
